

construction UPDATE

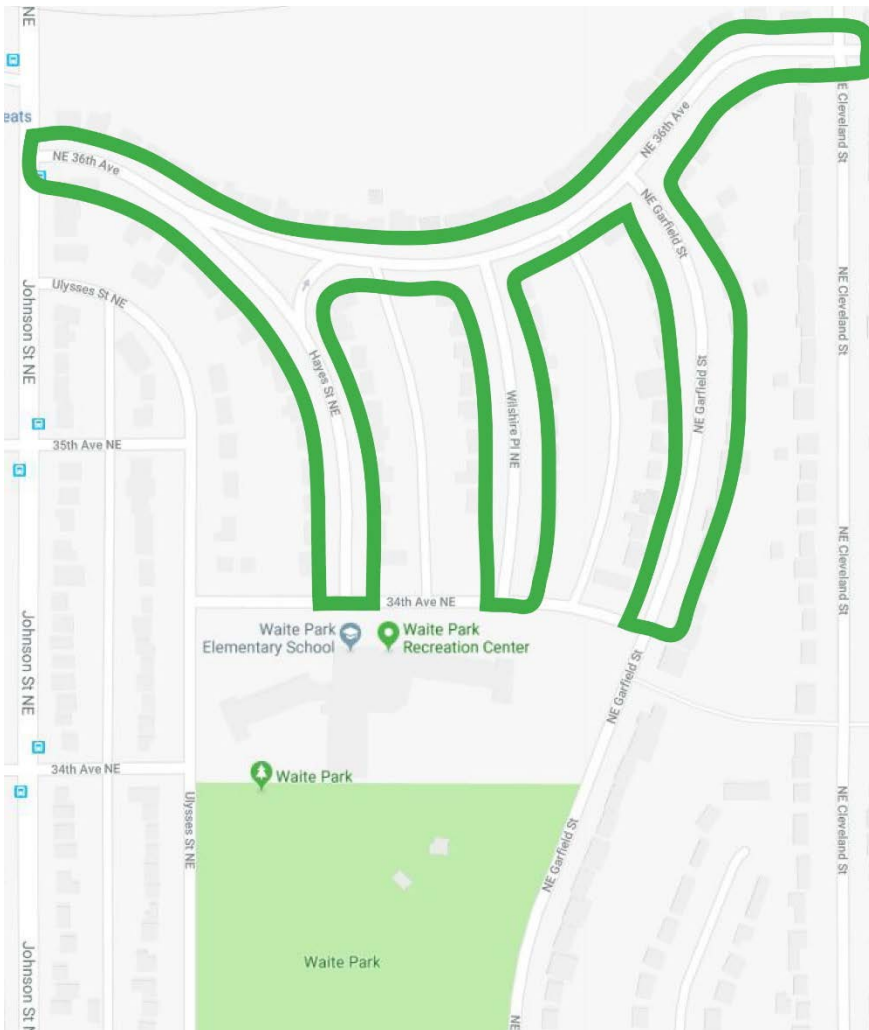

October 2, 2018

Stage 6 of the concrete pavement rehabilitation project is scheduled to begin in the green highlighted areas Wednesday, October 3 (weather permitting), and last about 2 weeks.

Roads under construction will be closed to **all** traffic during working hours (7 a.m.- 7 p.m.). Outside of working hours, one-way traffic will be allowed for driveway access. No street parking will be allowed at any time. Driveways that come directly into the construction area may be closed for a short time (up to 4 days) if concrete work occurs directly in front of your driveway. You will be notified one day in advance before this occurs with a paper flyer in your door. It is recommended that you park your vehicle(s) along adjacent side streets during the time of your driveway closure.

During construction, the project contractor may work Saturdays from 9 a.m. to 6 p.m. Any complaint regarding this work can be received by Minneapolis Information and Services at 612-673-3000 or 311 for phones with a 612 area code.

Our goal is to minimize inconveniences for all residents during this construction project, and we thank you in advance for your patience and cooperation. Additional project information and weekly updates can be found on the project website!
